**SECTION 04: FIRST-AID MEASURES**

Eye contact.....	Flush for 15 minutes using plenty of water. If irritation persists seek medical attention.
Skin contact.....	Wash using plenty of soap and water. Remove contaminated clothing.
Inhalation.....	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen, obtain medical attention.
Ingestion.....	Do not induce vomiting. Seek medical assistance as soon as possible.
Additional information.....	Treat victims symptomatically. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.

**SECTION 05: FIRE-FIGHTING MEASURES**

Suitable and unsuitable extinguishing media	Water fog. Carbon dioxide. Dry chemical. Water spray.
Specific hazards arising from the hazardous product, such as the nature of any hazardous combustion products	Oxides of carbon (CO, CO2). Hydrocarbon fumes and smoke.
Special protective equipment and precautions for fire-fighters	Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and may cause explosive rupture. Solvent vapours may be heavier than air and may build up and travel along the ground to an ignition source, which may result in a flash back to the source of the vapours.

**SECTION 06: ACCIDENTAL RELEASE MEASURES**

Leak/spill.....	Keep away from heat, sparks and flames. Eliminate all sources of ignition. Wear a breathing apparatus. Evacuate all non-essential personnel. Absorb with an inert dry material and place in an appropriate waste container. Do not allow product to run into sewers, basements or other enclosed areas.
-----------------	---

**SECTION 07: HANDLING AND STORAGE**

Precautions for safe handling.....	Containers must be grounded and bonded. Do not use near sources of ignition, open flames or sparks. Do not cut, drill, weld or grind on or near the container. Open containers slowly to allow for any pressure build-up to escape. Keep containers closed when not in use. Vapours of toluene may be released on heating or placing in solution and can accumulate during storage in closed container. Keep container closed when not in use. Use adequate ventilation. Wash thoroughly after handling.
Conditions for safe storage, including any incompatibilities	Store in a cool area, away from all sources of heat and ignition. Adopt precautionary measures against the build-up of electrostatic charges. Do not store above 50 deg C.
