

Pro Form Products Ltd. 604 McGeachie Drive Milton, Ontario, L9T 3Y5 Canada 905-878-4990

PRODUCT: PF 688C 4:1 CLEARCOAT 2.1 VOC

SECTION 01: IDENTIFICATION

PF 688C 4:1 CLEARCOAT 2.1 VOC Product identifier.....

Other means of identification

Polyester. Solvent solution.

Initial supplier identifier.....

Pro Form Products Ltd. 604 McGeachie Drive

Milton, Ontario L9T3Y5 Tel (905) 878-4990 Fax (905) 878-1189

24 hour emergency number:....

For transportation emergencies (in Canada) call CANUTEC 1-888-226-8832 (CAN-UTEC);

IN THE UNITED STATES CALL CHEMTRÉC 1-800-424-9300.

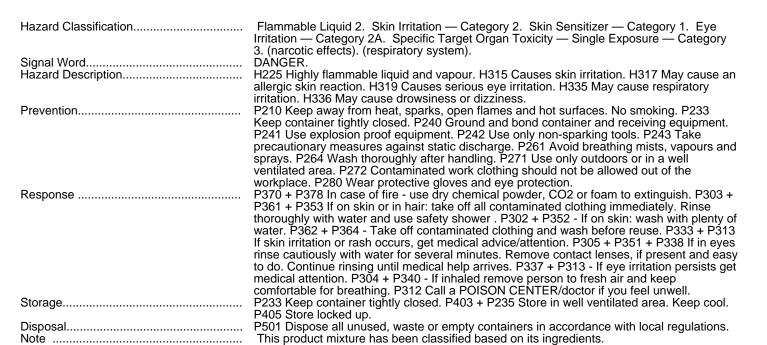

** For medical emergencies contact your local poison control centre **.

NFPA rating...... Health: 2 Fire: 4 Reactivity: 0.

HMIS...... H: 2 F:4 R: 0.

SECTION 02: HAZARD IDENTIFICATION

| SECTION 03: COMPOSITION / INFORMATION ON INGREDIENTS | | | |
|--|----------|-------|--|
| CHEMICAL NAME AND SYNONYMS | CAS# | WT. % | |
| Acetone | 67-64-1 | 10-30 | |
| n-Butyl Acetate | 123-86-4 | 10-30 | |
| 4-Chlorobenzotrifluoride | 98-56-6 | 7-13 | |

SECTION 03: COMPOSITION / INFORMATION ON INGREDIENTS

tert-Butyl acetate 540-88-5 7-13
Bis (1,2,2,6,6- Pentamethyl-4- Piperidyl) Sebacate 41556-26-7 0.1-1

<<The actual concentration(s) withheld as a trade secret>>

SECTION 04: FIRST-AID MEASURES

In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at least 15 minutes. Obtain medical attention.

.... If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen, obtain medical attention.

If ingestion is suspected, contact physician or poison control center immediately. Do not induce vomiting. If spontaneous vomiting occurs have victim lean forward with head down to prevent aspiration of fluid into the lungs. Never give anything by mouth to an unconscious person.

Harmful if swallowed, in contact with skin or if inhaled. Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. May cause respiratory irritation. Can cause skin sensitization. Causes skin and eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Direct contact with eyes may cause

temporary irritation.

Treat victims symptomatically. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.

SECTION 05: FIRE-FIGHTING MEASURES

Suitable and unsuitable extinguishing media

Ingestion.....

Most important symptoms and effects,

Additional information.....

whether acute or delayed

"Alcohol" foam, CO2, dry chemical. Do not use water in a jet.

Extremely flammable. Thermal decomposition products are toxic. May include:. Oxides of carbon (CO, CO2). Hydrocarbons and traces of chlorine compounds.

Acetone is a highly flammable liquid. It is easily ignited in the presence of heat, an ignition source such as a naked flame or a spark (including electrostatic discharge). Aqueous solutions of acetone can also ignite. Acetone vapors are heavier than air and can travel a long distance to an ignition source and cause flashback. Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. Solvent vapours may be heavier than air and may build up and travel along the ground to an ignition source, which may result in a flash back to the source of the vapours. Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and may cause explosive rupture.

SECTION 06: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Isolate area and keep unauthorized people away. Do not walk through spilled material. Wear recommended protective equipment. Ventilate. Open windows and doors to allow air circulation. Dike area to prevent spreading. The use of absorbent socks or spill pillows may be required. Stop leak if safe to do so. Prevent runoff into drains, sewers, and other waterways. Take precautions against static discharge. Use non-sparking tools and equipment to pick up the spilled material. Equipment should be grounded.

Methods and materials for containment and cleaning up Leak/spill.....

Avoid all personal contact. Evacuate all non-essential personnel. Ventilate. Eliminate all sources of ignition. Contain the spill. Absorb with an inert dry material and place in an appropriate waste container. Spilled material and water rinses are classified as chemical waste, and must be disposed of in accordance with current local, provincial, state, and federal regulations. Prevent runoff into drains, sewers, and other waterways.

SECTION 07: HANDLING AND STORAGE

Precautions for safe handling.....

Extremely flammable. Keep away from heat, sparks, and open flame. Ground handling equipment. Prevent accumulation of electrostatic charges. Always adopt precautionary measures against build-up of static which may arise from appliances, handling and the containers in which product is packed. Avoid all skin contact and ventilate adequately, otherwise wear an appropriate breathing apparatus. Avoid breathing vapours or mist. Handle and open container with care. Employees should wash hands and face before eating or drinking.

SECTION 07: HANDLING AND STORAGE

Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks, and open flames. Keep container closed when not in use. Use explosion proof equipment in areas where vapour concentrations can become ignitable. Store away from oxidizing and reducing materials. Store away from sunlight. Store in a cool and dry place, for product integrity. Do not cut, grind or weld on or near container, do not expose containers to heat, flame, sparks, static electricity, or other sources of ignition: the containers may explode and cause injury or death.

SECTION 08: EXPOSURE CONTROLS / PERSONAL PROTECTION

| INGREDIENTS | TWA | SIH TLV STEL | PEL OSH/ | A PEL STEL | NIOSH REL |

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

| Appearance/Physical state | Liquid. Clear. Characteristic odour. Solvent odour. Not available. Not applicable. < -33 °C. > 56 °C18°C. (estimate; lowest flash point ingredient). Moderate. Not applicable. Flammable liquid. 12.6. 0.9. Not available. >1. 0.984. 8.22. Slightly soluble in water. Not available. Not available. Not available. Not available. Not available. Not available. |
|---------------------------|--|
| Viscosity | 14 sec Zahn #2. |
| | |

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES

% Volatile by weight..... 15.44. Mixed VOC's when mixed with Activators as per label instructions:. Fast; 2.08 lbs/USG VOC (less water)..... (249.2 g/L). Medium: 2.08 lbs/USG (249.2 g/L). Slow; 2.08 lbs/USG (249.2 g/L).

SECTION 10: STABILITY AND REACTIVITY

Reactivity Avoid heat, sparks and flames. Explosive reactions can occur in the presence of strong oxidizing agents. Chemical stability.....Possibility of hazardous reactions..... Stable at normal temperatures and pressures. Will not occur under normal temperature and pressure. Conditions to avoid, including static Avoid heat, spark, open flames. Electrostatic charge. discharge, shock or vibration Strong oxidizing agents, acids, bases. Reducing agents. Aldehydes. Ammonia. Peroxides. Incompatible materails.....

Chlorine compounds. Acetone may ignite or react violently with strong oxidizing agents, such as chromic acid, chromium trioxide, chromyl chloride, hot nitric acid, potassium permanganate (in an alkaline medium), or peroxides. No hazardous decomposition products when stored and handled correctly. Hazardous

Hazardous decomposition products...... decomposition products depend on temperature, air supply, and the presence of other materials. See hazardous combustion products section 5.

SECTION 11: TOXICOLOGICAL INFORMATION

| INGREDIENTS | LC50 | LD50 |
|--|---|---|
| Acetone | 50,100 mg/m3 8 hours, rat | 5,800 mg/kg (rat oral) |
| n-Butyl Acetate | >33 mg/L vapour, 5.2 mg/L (rat) dust/mist | 10760 mg/kg (rat, oral) 14112 mg/kg (rabbit, dermal) |
| 4-Chlorobenzotrifluoride | 4479 ppm | >6,800 mg/kg (rat oral); >2,700 mg/kg (rabbit dermal) |
| tert-Butyl acetate | >2,230 mg/m3 4 hours rat | 4,100 mg/kg (rat, oral); >2,000 mg/kg (rabbit, dermal) |
| Bis (1,2,2,6,6- Pentamethyl-4- Piperidyl) Sebacate | Not Available | 2369-3920 mg/kg (oral rat), >2000 mg/kg (dermal rabbit) |
| Route of exposure Eye contact. Skin con Symptoms related to the physical, chemical | tact. Inhalation. | |

and toxicological characteristics The aromatic hydrocarbon solvents in this product can be irritating to the eyes, nose and Effects of acute exposure..... throat. In high concentration, they may cause central nervous system depression and narcosis characterized by nausea, lightheadedness and dizziness from overexposure by

inhalation. Skin contact..... Can cause moderate irritation, defatting and dermatitis. Chronic skin exposure to solvents may cause effects similar to those identified under Skin absorption..... chronic inhalation. Eye contact..... Causes eye irritation. Can cause redness, irritation, tissue destruction.

Aspiration of material into lungs can cause chemical pneumonitis which can be fatal. May Ingestion..... be harmful or fatal if swallowed. Solvent vapours may be irritating to the eyes, nose and throat, resulting in redness, burning Inhalation (acute).....

and itching of eyes, dryness of the throat and tightness in the chest. Breathing of high vapour concentrations may cause anesthetic effects and serious health effects. Effects of chronic exposure..... Breathing high concentrations of vapour may cause anesthetic effects and serious health

effects. Intentional misuse by deliberately concentrating and inhaling this product may be harmful or fatal.

Inhalation (chronic)..... Excessive inhalation of vapours can cause respiratory irritation, dizziness, headache, nausea and asphyxiation.

No component of this product present at levels greater than or equal to 0.1% is identified Carcinogenicity of material..... as probable, possible or confirmed human carcinogen by IARC or ACGIH. No component of this product present at levels greater than or equal to 0.1%

Reproductive effects..... Sensitizing capability of material..... May cause sensitization by skin contact.

Specific Target Organ Toxicity May cause drowsiness or dizziness. May cause respiratory irritation.

SECTION 12: ECOLOGICAL INFORMATION

Product data not available. Other adverse effects..... Do not allow to enter waters, waste water or soil.

SECTION 13: DISPOSAL CONSIDERATIONS

Information on safe handling for disposal . and methods of disposal, including any contaminated packaging

Dispose of waste in accordance with all applicable Federal, Provincial/State and local regulations. Empty containers must be handled with care due to product residue. Do not heat or cut empty containers with electric or gas torch.

SECTION 14: TRANSPORT INFORMATION

| TDG Classification | UN1263 - PAINT - Class 3 - Packing Group II - This product meets limited quantity |
|------------------------------|--|
| DOT Classification (Road) | exemption when shipped in containers less than 5 litres. UN1263 - PAINT - Class 3 - Packing Group II - Ltd Qty (1 Liter). Refer to 49CRF |
| ` ' | 172.101 for additional non-bulk packaging requirements. |
| IATA Classification (Air) | UN1263 - PAINT - Class 3 - Packing Group II. Limited Quantity. Do not ship by air |
| IMDG Classification (Marine) | without checking appropriate IATA regulations. UN1263 - PAINT - Class 3 - Packing Group II - EmS: F-E S-E. Limited Quantity. Check |
| , | IMDG regulations for limited quantity exemptions. |
| Marine Pollutant | Potential marine pollutant. |
| Proof of Classification | In accordance with Part 2.2.1 of the Transportation of Dangerous Goods Regulations (July |
| | 2, 2014) - we certify that classification of this product is correct. |

SECTION 15: REGULATORY INFORMATION

| CEPA statusTSCA inventory status | On Domestic Substances List (DSL). All components are listed. |
|--|--|
| OSHASARA Title III | This product is considered hazardous under the OSHA Hazard Communication Standard. |
| Section 302 - extremely hazardous substances | None. |
| Section 311/312 - hazard categories Section 313 EPA hazardous air pollutants (HAPS) 40CFR63 | None above De minimus % limit. |
| California Proposition 65 | ***! WARNING: This product can expose you to chemicals including [see below], which are known to the State of California to cause birth defects or other reproductive harm. (Toluene). For more information, go to www.P65Warnings.ca.gov. |

SECTION 16: OTHER INFORMATION

| Telephone number: | (800) 387-7981. |
